Student Research and Innovation & Start-up

Promote research and innovation activities & start-up for students via University-Entrepreneur ships

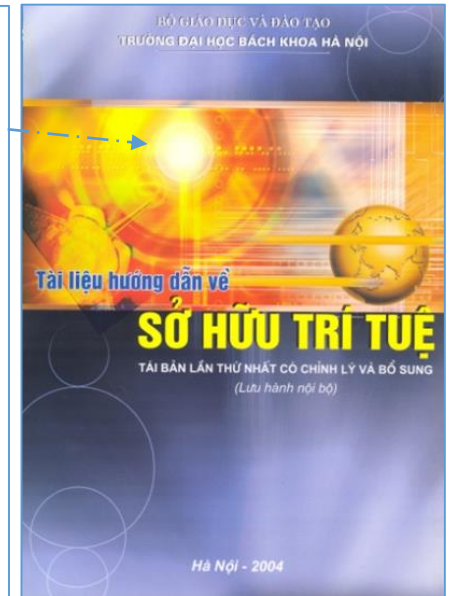

Innovation Contest sponsored by VNPT, Panasonic, Advantech ...

- Useful and creative products
- Technical connection with society
- Multidisciplinary research
- Core values for life
- Added soft skills

Intellectual Property Support Activities

- Develop and standardize regulations on Intellectual Property in HUST;
- Publish general curriculum on IP (for students of technical universities);
 - Host IP seminars/workshop to raise awareness, how to write a description and search for patent information...
- Consult and support patent registration for researchers.

Conclusions

- One of three national technology transfer centers planned to setup at HUST.
- Autonomy operational mode at HUST help create dynamic and flexible scheme on research & innovation activities, IP and technology transfer.
- Limitations on Intellectual Property commercialization due to ownership of governmental funded projects regulated by current Vietnam IP Law.
- Need more efforts and supports to transform research outputs, patents/utility models into commercialized products.

Thank you for attention
