

## **Report on IPC-related IT systems**

47th session of the IPC Committee of Experts

Geneva  
April 16, 2015

Patrick Fiévet  
Head of IT Systems Section

# Agenda

- IPCPUB IPC Internet publication (CE447)
- Migration to a new authentication and Identity management system
- Tool to collect Offices feedback
- IPCRECLASS (CE446)
- IPC Master files by-products (QC019)

# IPC PUB Status review

## New functionalities since IPC CE 46:

- Software package V 5.3 with IPC/CPC/FI “parallel viewer” implemented by some offices e.g. INPI Brazil
- Concerned Offices are invited to communicate to the IB IPC bridge updates if the link to their site is broken
- Evolutions for IPCRECLASS: “get Concordance TO” web service
- Evolutions for IPCRMS: Get XML fragment web service for CPC-based or FI-based IPC revision proposals

# IPC PUB perspectives

## Planned for 2015:

- Preparation for IPCRMS and future master files or their transformation (definitions, Catchword, compilation)
- Preparation for IPCRECLASS evolutions e.g. extend “concordance To” Web service with Default transfer
- **Unexpected for 2015:**
- Impact of CPC XML changes and associated modifications
- **To be discussed:**
- Suggestions for improvements [CE447](#)

# Migration to a new authentication and Identity management system

## Highlights:

- Based on Personal logins
- Centralized identity management (Office, email address, ...)
- Ultimately, single sign-on for all WIPO IT solutions supporting the IPC (or other business domain)
- Users administrators for large office assign the business area (e.g. IPC, NICE,...)
- Self assistance for forgotten, username or password

# Migration to a new authentication and Identity management system

## Transition Plan 2015:

- Office data capture: in progress
- IPC-IEF and IPCRECLASS: July-August
- IPCRMS: in progress until October
  
- You can already register login under :  
<https://www3.wipo.int/wipoaccounts>

# Tool to collect Office feedback

## New functionalities since IPC CE 46:

- Simple questions/answers based on logins/office information
- Automated report
- 2 surveys organized:
  - CE446: 17 offices answered
  - QC019: 22 offices and 4 public users responded
- Potential use to collect further feedback from offices

# Survey on the use of IPCRECLASS

## Conclusions

Based on [CE446 annex 14](#):

- Reclassification done essentially using
  - interactive mode
  - Import result list zip file
  
- No need to organize a retraining session

# IPC RECLASS

## New functionalities since IPC CE 46:

- Default transfer (for stage 3 reclassification)

# IPC RECLASS evolutions

**Short term (2015 ) / long term (2016-2017)**

**Perspectives:**

- Handover of part of the MCD processing from the EPO to WIPO
- Review of comments on project [CE446](#)

# Survey on IPC Master files by-products

## Conclusions:

- See [QC019 annex 14](#)
- Keep all existing by-products
- In addition as from 2016.01, new will appear:
  - Validity file
  - Compilation file

# IT operations and support for IPC
