##### Amendment to Annex B

The Commissioner of the Australian Patent Office and the Director General of the World Intellectual Property Organization have agreed, in accordance with Article 11(2) of the Agreement, on an amendment to Annex B of the Agreement with effect as from February 1, 1990.

The amended Annex reads as follows:

##### “ANNEX B

##### SUBJECT MATTER NOT EXCLUDED FROM SEARCH OR EXAMINATION

The subject matter set forth in Rule 39.1 or Rule 67.1 which, under Article 4 of the Agreement, is not excluded from search or examination, is the following:

Subject matter which is searched or examined under Australian national grant procedure.”

#### INTERNATIONAL BUREAU

##### Non-Working Days

For the purpose of computing time limits under PCT Rule 80.5\*\*, the days on which the International Bureau is **not open for business** are, for the period from February 1, 1990 to February 1, 1991, the following:

all Saturdays and Sundays and	September 6, 1990
April 13, 1990	December 24, 1990
April 16, 1990	December 25, 1990
May 24, 1990	December 31, 1990
June 4, 1990	January 1, 1991

It is important to note that the days indicated above concern only the International Bureau and not the national Offices and other international organizations.

#### STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

#### GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B\* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" are indicated. The abbreviations mean that the figures shown in the table for the designated State relate to national patents ("NAT") and/or European patents ("EPO").

**INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES****European Patent Organisation**

The **European Patent Office (EPO)** has informed the International Bureau that, by the beginning of February 1990, it had received 500 demands for international preliminary examination in respect of international applications filed with the United States Patent and Trademark Office (USPTO). The limit of 500 demands for which the EPO acts as International Preliminary Examining Authority (IPEA) has thus been reached for the period 1989/1990 (1 July 1989 to 30 June 1990).

Consequently, only the USPTO is competent to receive further demands for international preliminary examination, and PCT applicants from the United States of America are therefore required to submit, from now on, further demands for international preliminary examination not to the EPO but directly to the USPTO.

If a demand is nevertheless submitted to the EPO, it will be forwarded promptly to the USPTO as competent IPEA with an indication of the date of receipt by the EPO. That date of receipt of the demand will remain valid for subsequent proceedings.

### NOTICES AND INFORMATION OF A GENERAL CHARACTER

---

#### The Patent Cooperation Treaty (PCT) in 1989

The World Intellectual Property Organization (WIPO), Geneva, announces the results of operations under the Patent Cooperation Treaty (PCT) in 1989.

- . -

1. The steep increase in recent years of international applications filed under the PCT continued during 1989. WIPO received 14,874 international applications filed world-wide, which is an increase over 1988 of 24%. These international applications had, in the PCT Contracting States, the effect of some 230,000 national applications.

2. During 1989, Burkina Faso and Spain became PCT Contracting States, bringing the number of Contracting States to 42. Canada deposited its instrument of ratification of the PCT in 1989, and became, on January 2, 1990, the 43rd PCT Contracting State.

3. Since January 2, 1990, protection for inventions can be obtained through the PCT in the following 43 States:

- |                          |   |
|--------------------------|---|
| In Africa:               | Benin, Burkina Faso, Cameroon, Central African Republic, Chad, Congo, Gabon, Madagascar, Malawi, Mali, Mauritania, Senegal, Sudan, Togo   |
| In the Americas:         | Barbados, Brazil, Canada, United States of America  |
| In Asia and the Pacific: | Australia, Democratic People's Republic of Korea, Japan, Republic of Korea, Sri Lanka   |
| In Europe:               | Austria, Belgium, Bulgaria, Denmark, Finland, France, Germany (Federal Republic of), Hungary, Italy, Liechtenstein, Luxembourg, Monaco, Netherlands, Norway, Romania, Soviet Union, Spain, Sweden, Switzerland, United Kingdom. |

4. **Statistics.\*** The number of international applications received by the International Bureau of WIPO in 1989 amounted to 14,874. The corresponding numbers in each calendar year since the beginning of PCT operations are as follows:

6. In 1989, the average number of Contracting States designated per international application was 15.78 (1988: 14.96). The average number of designation fees payable, however, was 6.86 (1988: 6.57). This difference is due to the fact that in the case of the designation of several countries for regional (European or OAPI) protection, only one designation fee is due and to the fact that each designation beyond the first ten for which designation fees are due is free of charge. The difference also shows that applicants eliminate a certain number of designations--made at no cost at the time of filing--by the time they pay the designation fee, a natural result of the PCT procedure. In 1989, a European patent was asked for in 13,317 international applications, which represents 89.53% (1988: 10,637 = 88.97%) of the cases. 2,210 (14.85%) applications contained more than ten designations and their applicants thus benefited from the advantage of the maximum amount of the designation fee according to which (as already stated) any designation in excess of ten is free of charge.

\* 1,570 (= 10.56%) of the international applications received were filed with the European Patent Office (EPO); they are included in the figures concerning the member State of the EPO of which the applicant is a national or resident.

\*\* The national Office of Switzerland also acts for nationals and residents of Liechtenstein.

\*\*\* The national Office of the United Kingdom also acts for residents of Hong Kong and the Isle of Man.

7. A copy of every international application is sent to the competent International Searching Authority (ISA). The number of search copies sent to each ISA is as follows:

Authority (country or organization)	Number of search copies	Percentage of total
Australia	561	3.77
Austria	87	0.58
Japan	1,313	8.83
Soviet Union	318	2.14
Sweden	1,450	9.75
United States of America	4,051	27.24
European Patent Office	7,094	47.69
<b>Total:</b>	<b>14,874</b>	<b>100.00</b>

8. The languages of filing of the international applications received in 1989 by the International Bureau and the corresponding percentages are as follows:

Language of filing	Number of applications		Percentage of total	
	1989	(1988)	1989	(1988)
Danish	138	(109)	0.93	(0.91)
Dutch	32	(20)	0.21	(0.17)
English	9,301	(7,177)	62.53	(59.84)

<b>Total:</b>	<b>14,874</b>	<b>(11,996)</b>	<b>100.00</b>	<b>(100.00)</b>

9. In 1989, 6,548 demands for international preliminary examination under Chapter II of the PCT (1988: 3,595) were filed with the Offices indicated below, which act as International Preliminary Examining Authorities.

Authority (country or organization)	Number of search copies		Percentage of total	
	1989	(1988)	1989	(1988)
Australia	380	(245)	5.80	(6.82)
Austria	16	(13)	0.24	(0.36)
Japan	170	(154)	2.60	(4.28)
Soviet Union	1	(1)	0.02	(0.03)
Sweden	807	(520)	12.32	(14.46)
United Kingdom	813	(431)	12.42	(11.99)
United States of America	2,161	(939)	33.00	(26.12)
European Patent Office	2,200	(1,292)	33.60	(35.94)
<b>Total:</b>	<b>6,548</b>	<b>(3,595)</b>	<b>100.00</b>	<b>(100.00)</b>

10. The increase by 82.2% in the number of demands for international preliminary examination in 1989 can be attributed to the fact that most of the Contracting States can now be elected for international preliminary examination, which permits applicants to postpone the national phase to 30 months from the priority date. This is 18 months later than for separate applications filed in each country in which the applicant is interested.

11. **Publications under the PCT.** The fortnightly publication of the PCT Gazette, in separate English and French editions, was continued throughout 1989. In addition to a substantial volume of information of a general character, the PCT Gazette included entries relating to the 12,950 (1988: 10,515) international applications which were published in the form of PCT pamphlets (in English, French, German, Japanese or Russian, depending on the language of filing) on the same day as the relevant issues of the PCT Gazette. Four special issues were published, two with consolidated information of a general character, one with the text of the Administrative Instructions under the PCT as in force on October 1, 1989, and one with the list of periodicals which pertain to the "minimum documentation" under the PCT. The numbers of international applications published as pamphlets in each of the above-mentioned languages and the corresponding percentages are as follows:

Language of publication	Number of applica- tions published		Percentage of total	
	1989	(1988)	1989	(1988)
English	8,769	(6,970)	67.71	(66.29)
French	711	(634)	5.49	(6.03)
German	1,995	(1,630)	15.41	(15.50)
Japanese	1,243	(1,103)	9.60	(10.49)
Russian	232	(178)	1.79	(1.69)
<b>Total:</b>	<b>12,950</b>	<b>(10,515)</b>	<b>100.00</b>	<b>(100.00)</b>

12. **Meetings.** In 1989, the Assembly of the PCT member States met.

13. The PCT Committee for Technical Cooperation held its twelfth session in Geneva in June 1989. The Committee considered questions relating to the PCT minimum documentation and the interest of gathering statistics concerning the number of industrial property rights that had been granted based upon international applications filed under the PCT.

14. In 1989, officials of the International Bureau participated in meetings on the use and the advantages of the PCT in Belgium, Denmark, France, Germany (Federal Republic of), Italy, Japan, Mexico, the Netherlands, Spain, Sweden, the United Kingdom and the United States of America.

## INFORMATION ON CONTRACTING STATES

**Republic of Korea**

On June 1, 1990, the **Republic of Korea** notified, under PCT Article 64(6)(b), the withdrawal of its declaration under PCT Article 64(1)(a) that it shall not be bound by the provisions of Chapter II of the PCT. Thus, the **Republic of Korea** will become bound by Chapter II of the PCT on September 1, 1990.

The withdrawal of the said declaration has the effect that, on and after September 1, 1990,

(a) nationals and residents of the **Republic of Korea** may submit demands for international preliminary examination of international applications filed by them;

(b) the **Republic of Korea** may be elected in demands for international preliminary examination or in later elections submitted in respect of international applications in which the **Republic of Korea** is a designated State;

(c) paragraphs (a) and (b) apply irrespective of whether the international application was or will be filed before, on or after September 1, 1990.

#### CONTRACTING STATES

##### States Party to the Patent Cooperation Treaty (PCT)

On July 9, 1990, Greece deposited its instrument of accession to the Patent Cooperation Treaty (PCT). Greece will become the 44th Contracting State of the PCT on **October 9, 1990**. The instrument of accession contains a declaration that Greece will not be bound by Chapter II (concerning international preliminary examination) of the PCT.

Consequently, as from October 9, 1990, nationals and residents of Greece will be entitled to file international applications under the PCT and, from the same date, it will be possible for residents and nationals of all Contracting States to file international applications designating Greece.

The entry into force of the PCT for Greece is of particular importance since it has the consequence that, as from October 9, 1990, all States party to the European Patent Convention (Austria, Belgium, Denmark, France, Germany (Federal Republic of), Greece, Italy, Liechtenstein, Luxembourg, the Netherlands, Spain, Sweden, Switzerland and the United Kingdom) will also be party to the PCT. This opens up the possibility of obtaining, by filing a single international application under the PCT, a European patent for all those States.

1. Date of actual receipt of DEMAND:
2. Adjusted date of receipt of DEMAND due to CORRECTIONS under Rule 60.1(b):

These Notes are intended to give some information concerning international preliminary examination under Chapter II of the PCT and to facilitate the filling in of the present form. For authentic information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and the said texts, the latter are applicable. For more detailed information, see also the **PCT Applicant's Guide**, a publication of WIPO.

"Article" refers to Articles of the Treaty, "Rule" refers to Rules of the Regulations and "Section" refers to Sections of the Administrative Instructions.

### IMPORTANT GENERAL INFORMATION

**Who May File a Demand (Article 31(2)(a))?** A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with the receiving Office of, or acting for, such State. Where there are several applicants, at least one of them must qualify for the purposes of each elected State (Rule 54.3(a)).

**Where Must the Demand Be Filed (Article 31(6)(a))?** The demand must be filed with the International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see Annex C of the PCT Applicant's Guide, Volume I). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant.

**When Must the Demand be Filed (Article 39(1))?** The demand must be filed **before** the expiration of **19 months from the priority date** in order to extend the time limit for entering the national phase of the PCT procedure from 20 to 30 months from the priority date. **Warning:** if the demand is filed later, the national phase will not be delayed in respect of the elected States and the applicant must enter the national phase before the expiration of the time limit applicable under Article 22 (which is usually 20 months from the priority date).

**In Which Language Must the Demand be Filed (Rule 55.1)?** The demand must be filed in the language of the international application if that language is English, French, German, Japanese or Russian; otherwise, the demand must be filed in English.

**What is the Language of Correspondence (Rules 66.9 and 92.2, Section 104)?** Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, the IPEA may authorize the use of another language for letters which do not contain or relate to amendments of the international application, whereas amendments and letters relating thereto must be in the language of publication. Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

**Which Fees Must be Paid and When (Rules 57 and 58)?** At the time the demand is submitted, the applicant must pay

- (i) the preliminary examination fee, and
- (ii) the handling fee.

For details concerning the payment of those fees, see the Fee Calculation Sheet.

### NOTES TO BOX No. I

**Identification of the International Application (Rule 53.6):** The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

**International Filing Date and Priority Date (Section 110):** They must be indicated by the arabic number of the day, the name of the month and the arabic number of the year; after or below such indication, the date should be repeated in parenthesis by indicating it by two-digit arabic numerals each for the number of the day, for the number of the month and for the last two numbers of the year, e.g., 10 June 1986 (10.06.86). Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

### NOTES TO BOX No. II

**Applicant(s) (Rule 53.4):** Make here the relevant indications as appearing in Boxes Nos. II and III of the REQUEST (Form PCT/RO/101). The Notes to the REQUEST apply *mutatis mutandis*. If there are several applicants, give the relevant indications for each of them; if there are more than two applicants, make the required indications on the "Continuation sheet."

If different applicants for different designated States are indicated in the REQUEST part of the international application, indicate only the applicants for the States elected in Box No. V (no indication of the States for which a person is applicant need be made, because those indications have been made in the REQUEST).

### NOTES TO BOX No. III

**Agent or Common Representative (Rule 53.5):** The **first check-box** must be marked where the applicant is already represented by an agent or where a common representative has been appointed. The **second check-box** must be marked where the applicant was not represented in the earlier stages of the PCT procedure and now wants to be represented by an agent before the IPEA, or where the applicant was represented in the earlier stages of the PCT procedure but wants to change the agent for the procedure before the IPEA. The **third check-box** must be marked where the applicant wants to be represented by an additional agent appointed only for the procedure before the IPEA without revocation of any earlier appointment; please note that in the latter case all notifications issued by the IPEA will be addressed only to that additional agent. Where the second or the third check-box is marked and the applicant does not sign himself the demand, a separate power of attorney must be filed with the International Bureau of WIPO or with the receiving Office (Rule 90.3(b)).

**Address for Notifications (Rule 4.4(d)):** If no agent has been appointed, a special address for the sending of notifications to the applicant may be indicated in Box No. III instead of the name and address of an agent. That address must be different from the address given in Box No. II and the special check-box must be marked. If an agent has been appointed, notifications will be sent to his address.

### NOTES TO BOX No. IV

**Declaration Concerning Amendments of the Claims (Rules 62.2, 66.1 and 69.1(b)):** Marking of the appropriate check-box is recommended, as it will help the IPEA to know immediately to which claims the international preliminary examination must be directed. International preliminary examination can only start once this is clear.

It is recalled that any amendment to the claims under Article 19 or any declaration that the applicant does not intend to file such amendments, are required to be filed with the International Bureau. That Bureau will promptly transmit any amendment or declaration to the IPEA. The international preliminary examination can start when the IPEA has received from the International Bureau such amendments or such declaration or a notice that no amendments have been filed in the prescribed time limit.

In case the demand for international preliminary examination has already been submitted, the applicant must, if he subsequently files amendments under Article 19 with the International Bureau, file at the same time a copy of such amendments with the IPEA.

The third of the three check-boxes relates to amendments under Rule 66.1. Those amendments must be filed with the IPEA.

#### NOTES TO BOX No. V

**Election of States** (Rule 53.7): Only States which are bound by Chapter II of the PCT and which have been designated at the time of filing the international application (in the REQUEST) can be elected. The election is effected by marking the applicable check-box. The kind of protection or treatment desired follows the indication made in the REQUEST part of the international application. If a **European patent** is desired and only some of the Contracting States of the European Patent Convention have been designated for a European patent in the REQUEST part of the international application, the names of the other such States must be struck

out. Greece, Spain, Switzerland and Liechtenstein are not bound by Chapter II and cannot be elected; however, if they have been designated in the REQUEST part of the international application for a European patent together with at least one other Contracting State of the European Patent Convention, the time limit under PCT Article 39(1) applies also with respect to those four States if the other State has been elected before the expiration of 19 months from the priority date.

#### NOTES TO BOX No. VI

**Signature** (Rule 53.8): The demand must be signed by the applicant or by his agent. If the demand is not signed by (all) the applicant(s), a power of attorney signed by (all) the applicant(s) must be filed with the International Bureau of WIPO or with the receiving Office, unless the agent has previously been appointed.

## ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT

### ANNEX F - FORMS

#### Modification of Forms PCT/RO/101 (Request) and PCT/IPEA/401 (Demand)

The Request Form and Demand Form have been modified subsequent to the accession by Greece and Poland to the PCT. The modifications concern Box V, Designation of States, on the "second sheet" of the Request and the Notes to the Request as well as the "last sheet" of the Demand. All the sheets of the Request and the Demand, including those sheets which have not been modified, as well as the Fee Calculation Sheets and the Notes thereto, are now dated "January 1991". The modifications take effect on January 1, 1991.

The modified "second sheet" of the Request and the modified Notes to the Request as well as the modified "last sheet" of the Demand are reproduced on the next pages.

Notwithstanding the entry into force of the modified Request Form and Demand Form, applicants may use the previous version of the Forms until the stock is depleted. It is recommended, however, to use for international applications filed after January 1, 1991, only the updated versions. Copies can be obtained free of charge from the receiving Offices.

**Box No. IV AGENT (IF ANY) OR COMMON REPRESENTATIVE (IF ANY); ADDRESS FOR NOTIFICATIONS (IN CERTAIN CASES).** A common representative may be appointed only if there are several applicants and if no agent is or has been appointed; the common representative must be one of the applicants.

The following person (includes, where applicable, a legal entity) is hereby/has been appointed as agent or common representative to act on behalf of the applicant(s) before the competent International Authorities:

Space reserved for designating States (for the purposes of a national patent) which have become party to the PCT after the issuance of this sheet:

.....

(1) The applicant's choice of the order of designations may be indicated by marking the check-boxes with sequential arabic numerals (see also the "Notes to Box No. V").  
 (2) The selection of particular States for a European patent can be made upon entering the national (regional) phase before the European Patent Office (see also the "Notes to Box No. V").  
 (3) If another kind of protection or a title of addition or, in the United States of America, treatment as a continuation or a continuation-in-part is desired, specify according to the instructions given in the "Notes to Box No. V."

These Notes are intended to facilitate the filling in of the form. For authentic information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and the said texts, the latter are applicable. For more detailed information, see also the **PCT Applicant's Guide**, a publication of WIPO.

"Rule" refers to Rules of the Regulations and "Section" refers to Sections of the Administrative Instructions.

Please use a typewriter. The applicable check-boxes may be marked with black ink.

#### NOTES TO BOX No. I

**Title of Invention** (Rule 4.3 and 5.1(a)): The title must be short (preferably two to seven words when in English or translated into English) and precise. It must be identical with the title heading the description.

#### NOTES TO BOXES Nos. II and III

**Indication whether a Person is Applicant and/or Inventor** (Rules 4.5(a) and 4.6(a) and (b)): Please mark the applicable check-box in order to indicate whether the person (including a legal entity) named is "applicant only" (which means that the person is not also inventor), "inventor only" (which means that the person is not also applicant) or "applicant and inventor" (which means that the person is both). A person is to be named only once, even where the person is both applicant and inventor.

**Names and addresses** (Rule 4.4): The family name (preferably in capital letters) must be indicated before the given name(s). Titles and academic degrees must be omitted. Names of legal entities must be indicated by their full official designations.

The address must be indicated in such a way that it allows prompt postal delivery; it must consist of all the relevant administrative units (up to and including the indication of the house number, if any, and the State).

Only one address may be indicated per person. Where no agent is appointed, a special "address for notifications" may be indicated in Box No. IV (see below).

**Nationality** (Rules 4.5(a) and (b) and 4.6(a)): For each applicant, the nationality must be indicated by the name of the State of which the person is a national. This indication is not required where a person is inventor only.

**Residence** (Rules 4.5(a) and (c) and 4.6(a)): For each applicant, the residence must be indicated by the name of the State of which the person is a resident. However, if the residence is not indicated, it will be assumed that the State of residence is the same as the State indicated in the address. The indication of the residence is not required where a person is inventor only.

**Names of States** (Section 201(a)): For the indication of names of States the two-letter country codes may be used.

**Different Applicants for Different Designated States** (Rule 18.4(a)): It is possible to indicate different applicants for the purposes of different designated States. In such a case, in respect of each designated State, at least one of the applicants indicated for the purposes of that State must be a national or resident of a PCT Contracting State. **Where the United States of America is one of the designated States, the inventor(s) must be the applicant(s) for the United States of America and the check-box "applicant and inventor" must be marked.**

For the indication of the designated States for which a person is applicant please mark the applicable check-box (only one). The check-box "the States indicated in the 'Supplemental Box'" must be marked where none of the other three check-boxes fits; in such a case, the name of the person must be repeated in the Supplemental Box with an indication of the States for which he is applicant (see item (ii) in that Box).

**Naming of Inventor** (Rule 4.1(a)(v) and (c)(i)): The inventor's name and address must be indicated where the national law of at least one of the designated States requires that the name of the inventor be furnished at the time of filing; for details see the PCT Applicant's Guide, Volume I, Annex B. It is strongly recommended to always name the inventor.

**Different Inventors for Different Designated States** (Rule 4.6(c)): Different persons may be indicated as inventors for different designated States where, in this respect, the requirements of the national laws of the designated States are not the same; in such a case, the Supplemental Box must be used (see item (iii) in that Box).

#### NOTES TO BOX No. IV

**Agent or Common Representative** (Rules 4.7 and 4.8 and Section 108): For the manner in which name(s) and address(es) including names of States must be indicated, see the Notes to Boxes Nos. II and III. Where several agents are listed, the agent to whom any correspondence must be addressed is to be listed first. If there is more than one applicant but no common agent representing them, the Request must designate one of the applicants who is a national or resident of a Contracting State, as their common representative. If this is not done, the common representative will be the applicant first named in the Request who is entitled to file an international application with the receiving Office.

**Appointment of Agent or Common Representative** (Rule 90.3 and Section 106): Any such appointment may be made by designating the agent(s) or the common representative in the Request or in a separate power of attorney. Each applicant must sign either the Request or the separate power of attorney. Where the international application is filed with reference to a general power of attorney, a copy thereof must be attached to the Request and any applicant who did not sign the general power of attorney must sign either the Request or a separate power of attorney.

**Address for Notifications** (Rule 4.4(d)): If no agent has been appointed, a special address for the sending of notifications to the applicant may be indicated in Box No. IV instead of the name and address of an agent. That address must be different from the address given in Box No. II and the special check-box must be marked. If an agent has been appointed, notifications will be sent to his address.

#### NOTES TO BOX No. V

**Designation of States:** The Contracting States in which protection is desired must be designated in the Request by marking the applicable check-boxes. **Note that after filing further designations cannot be made.**

The marking of the check-boxes of the designated States by means of sequential arabic numerals will be taken as indicating the applicant's choice of the order of the designations; if another form of marking is used, the order will be taken as that in which the marked boxes appear on the form. This order will only have any significance if the amount received for the designation fees is insufficient to cover all the designations; in that case, the amount received will be applied in payment of the fees for the designations following the said order (Rule 16bis.2(c) and Section 321).

For the designation of a State which has become party to the PCT after the date appearing on the bottom of the second sheet of the Request form, the name of the State, preferably preceded by the two-letter country code, must be given together with an indication, where applicable, whether national or regional protection or a special kind of protection or treatment is desired.

Where a **European patent** is desired, only one designation fee must be paid for that purpose, independently of the number of States designated for a European patent.

Where one or more States are designated twice (once for the purposes of a European patent and once for the purposes of national protection), the applicant must pay one designation fee in respect of the European patent and as many designation fees as there are national patents or other titles of protection sought (Rule 15.1(ii) and Section 210).

Note that **Belgium, France, Greece and Italy** can only be designated for the purposes of a European patent and not for the purposes of national protection.

If a European patent is desired for only some of the Contracting States of the European Patent Convention, the names of those States for which no European patent is desired may be deleted by striking them out. However, it is recommended to designate always all the Contracting States of the European Patent Organisation and to make a selection only upon entering the national (regional) phase before the European Patent Office and upon payment of the European designation fees.

**Choice of Certain Kinds of Protection or Treatment** (Rules 4.12 to 4.14 and Section 202): Where, in any country where that is possible, instead of a patent, a national title other than a patent is desired, write after the name of that country on the dotted line the name of the title, that is, "petty patent" (available in Australia), "utility model" (available in Brazil, Germany, Japan, Poland, the Republic of Korea, Spain, OAPI) or "inventor's certificate" (available in Bulgaria, the Democratic People's Republic of Korea, the Soviet Union). Where, in Germany (the only country in which this possibility exists), in addition to a patent, a utility model is also desired, write after the name of that country "and utility model."

Where, in respect of any country where that is possible, it is desired that the application be treated as an application for a certain title "of addition" or as an application for a "continuation" or a "continuation-in-part," write after the name of that country the appropriate words, that is, "patent of addition" (available in Australia, Austria, Bulgaria, Germany, Malawi, the Soviet Union, Spain), "certificate of addition" (available in Luxembourg, Monaco, OAPI), "inventor's certificate of addition" (available in Bulgaria, the Soviet Union), "continuation" or "continuation-in-part" (both available in the United States of America). If any of these indications is used, indicate in the "Supplemental Box" the State for which such treatment is desired, the number of the parent title or parent application, and the date of grant of the parent title or the date of filing of the parent application, as the case may be (see item (v) in that Box).

#### NOTES TO BOX No. VI

**Priority Claim** (Rule 4.10): The declaration containing the priority claim must be made in the Request.

The Request must indicate both

(i) when the earlier application is not a regional or an international application, the **country** in which it was filed, or, when the earlier application is a regional or an international application, at least one country for which it was filed, and

(ii) the **date** on which it was filed; otherwise, the priority claim will, for the purposes of the procedure under the Treaty, be considered not to have been made.

If the application **number** of the earlier application is not indicated in the Request but is furnished by the applicant to the International Bureau or to the receiving Office prior to the expiration of the 16th month from the priority date, it is considered by all designated States to have been furnished in time.

**Certified Copy of Earlier Application (Priority Document)** (Rule 17.1): Such copy must be submitted to the International Bureau or to the receiving Office prior to the expiration of the 16th month from the priority date or, where an early start of the national phase is requested, not later than at the time such request is made.

Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office to transmit the priority document to the International Bureau. Such request may be made by marking the special check-box and by identifying the document. **Attention:** where such a request is made, the applicant must pay to the receiving Office the applicable **fee for priority document**.

**Dates** (Section 110): They must be indicated by the arabic number of the day, the name of the month and the arabic number of the year; after or below such indication, the date should be repeated in parenthesis by indicating it by two-digit arabic numerals each for the number of the day, for the number of the month and for the last two numbers of the year, e.g., 10 June 1986 (10.06.86).

#### NOTES TO BOX No. VII

**Earlier Search** (Rule 4.11): The filling in of Box No. VII may result in a total or partial refund of the international search fee.

#### NOTES TO BOX No. VIII

**Signature** (Rules 4.1(d), 4.15 and 90.3(a)): The signature must be that of the applicant (if there are several applicants all must sign); however, the signature may be that of the agent where a separate power of attorney appointing the agent, or a copy of a general power of attorney already in the possession of the receiving Office, is attached to the Request. The name of each person signing the Request should be typed below the signature; similarly, an indication of the capacity in which the person signs should be indicated if such capacity is not obvious from reading the Request.

#### NOTES TO BOX No. IX

**Reference to a Deposited Microorganism** (Rule 13bis and Section 209): Form PCT/RO/134 or any separate sheet containing indications concerning a deposited microorganism may, in most cases, be listed as "**other document**." This is not the case if Japan is designated: in that case, Form PCT/RO/134 or any other sheet containing the said indications must be included as one of the sheets of the description.

#### NOTES TO "SUPPLEMENTAL BOX"

The manner of making indications in this Box is indicated on the top of the "supplemental sheet."

**Statement concerning Non-Prejudicial Disclosures or Exceptions to Lack of Novelty:** Such a statement, unless contained in the description, may be given in this Box. It should comply with the national law applicable by the designated Office to which the statement is addressed.

#### GENERAL REMARKS

**Language of Correspondence** (Rule 92.2 and Section 104): Any letter from the applicant to the receiving Office, the International Searching Authority or the International Preliminary Examining Authority must be in the same language as the international application to which it relates; however, the receiving Office, the International Searching Authority or the International Preliminary Examining Authority may authorize the use of another language. Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

**Arrangement of Elements and Numbering of Sheets of the International Application** (Rule 11.7 and Section 207): The elements of the international application must be placed in the following order: the Request, the description, the claim(s), the abstract, the drawings (if any). All sheets constituting the international application must be numbered in consecutive arabic numerals with three separate series of numbers: the first applying to the Request, the second applying to the part consisting of the description, the claim(s) and the abstract, and the third applying to the drawings. The numbers must be placed at the top of the sheet, in the middle, below the 2cm margin which must remain blank. The number of each sheet of the drawings must consist of two arabic numerals separated by an oblique stroke, the first being the sheet number and the second being the total number of sheets of drawings.

**Box No. IV DECLARATION CONCERNING AMENDMENTS OF THE CLAIMS**

Applicant wishes international preliminary examination to start promptly on the basis of the claims

- as filed (amendments under Article 19 have not been made and will not be made)
- as amended under Article 19
